Royal College of Surgeons in Ireland.

SCHOOLS OF SURGERY,

INCLUDING

CARMICHAEL AND LEDWICH SCHOOLS.

DUBLIN:

PRINTED AT THE UNIVERSITY PRESS,

BY PONSONBY & GIBBS.

1938-1939.

THE SCHOOLS OF SURGERY

(FOUNDED 1788)

Are attached by Charter to the Royal College of Surgeons, and are under the supervision and control of its Council. The Buildings contain a spacious Dissecting Room and special Physiological, Pathological, Bacteriological, Public Health, Chemical, and Pharmaceutical Laboratories.

All the Lectures and Courses of Practical Instruction may be attended by Medical Students who are otherwise unconnected with the College.

Ladies are eligible for all the Diplomas granted by the College. Separate rooms have been provided, and careful provision is made for their instruction and comfort.

The Schools of Surgery re-open on October 1st, 1938.

WINTER SESSION Lectures and Practical Courses	Commence 4th October, 1938, on which date every student is expected to be present. Any student failing to present himself (or herself) during the week commencing 4th October, 1938, will be required to postpone his (or her) lectures until the following year. Terminate 4th March, 1939.
SUMMER SESSION Lectures and Practical Courses	Commence 7th March, 1939. Terminate 30th June, 1939.

All Fees must be paid in advance. Cheques to be made payable to "The Royal College of Surgeons in Ireland."

HOLIDAYS.

Christmas Recess—17th December, 1938, to 2nd January, 1939 (inclusive).
Ash Wednesday—22nd February, 1939.
St. Patrick's Day—17th March, 1939.
Easter Recess—1st April, 1939, to 23rd April, 1939 (inclusive).
Whit Monday—29th May, 1939.
Summer Recess—Two months, 1st August to 30th September, 1939.

PROFESSORS.

ANATOMY.

Professor.

EVELYN JOHN EVATT, D.S.O., M.B., B.S. (Univ. Durham);

Examiner in Anatomy, Conjoint Board, Royal Colleges of Physicians and Surgeons; Examiner in Anatomy for the Fellowship, R.C.S.I., and for the Licence in Dental Surgery.

Demonstrators.

F. A. Davis, M.B.
J. J. Fitzsimons, F.R.C.S.I.
J. G. Mathews, L.R.C.P. & S.I.
C. K. Byrnes, L.R.C.P. & S.I.

Student Demonstrators.

H. C. Coker.
V. Crowley.
E. E. Doyle.
T. P. Garry.
James Butler.
K. Farrell.
L. D. Keegan.
B. J. Maher.
J. E. Moloney.
W. L. Sharpe.
A. J. MacDonald.

APPLIED ANATOMY.

Lecturer.

A. B. CLERY, F.R.C.S.I.;

Assistant Surgeon to Richmond, Hardwicke, and Whitworth Hospitals; Examiner in Surgery, Final Fellowship.

PHYSIOLOGY AND HISTOLOGY.

Professor.

W. J. E. JESSOP, M.D., M.Sc., D.P.H. (Univ. Dub.);

Examiner in Physiology and Histology, Conjoint Board, Royal Colleges of Physicians and Surgeons; Examiner in Physiology and Histology for the Fellowship, R.C.S.I., and for the Licence in Dental Surgery; Bio-chemist to the Meath Hospital.

Assistant.

J. D. H. Widdess, L.R.C.P. & S.I.;

Bio-Chemist to the Richmond, Hardwicke, and Whitworth Hospitals.

Demonstrators in Physiology.

D. F. Early.
P. J. Corrigan.
P. D. Maloney.

PATHOLOGY.

Professor.

W. BOXWELL, M.D. (Univ. Dub.), F.R.C.P.I.;

Physician, Meath Hospital; Examiner in Pathology, Conjoint Board, Royal Colleges of Physicians and Surgeons; Examiner for the Diploma in Public Health; Examiner in Pathology for the Membership of the Royal College of Physicians.

Assistant.

Dr. Pollock.

CHEMISTRY AND PHYSICS.

Professor.

W. NORMAN RAE, V.D., M.A. (Cantab.), F.I.C.;

Examiner in Chemistry and Physics, Conjoint Board, Royal Colleges of Physicians and Surgeons, Ireland; Examiner for the Diploma in Public Health.

Demonstrator.

W. Whelan.

SURGERY.

Professor.

ARTHUR CHANCE, M.Ch., F.R.C.S.I., F.R.C.S. (Eng.);

Surgeon, Jervis Street Hospital; Surgeon, Dr. Steevens' Hospital, Dublin; Consulting Surgeon, Orthopædic Hospital, Dublin; Consulting Surgeon, St. Michael's Hospital; Examiner in Surgery, Conjoint Board, Royal Colleges of Physicians and Surgeons.

PRACTICE OF MEDICINE.

Professor.

LEONARD ABRAHAMSON, M.D. (Dub. Univ.), F.R.C.P.I.;

Senior Physician to Richmond, Whitworth, and Hardwicke Hospitals, Dublin; Hon. Consulting Physician, Drogheda Cottage Hospital.

MIDWIFERY AND GYNÆCOLOGY.

Professor.

ANDREW H. DAVIDSON, M.D. (Dub. Univ.), F.R.C.P.I., F.C.O.G.;

Master, Rotunda Hospital, Dublin; Late Gynæcologist, Dr. Steevens' Hospital, Dublin; Examiner in Midwifery, Conjoint Board, Royal Colleges of Physicians and Surgeons.

PHARMACOLOGY

Professor.

R. H. MICKS, M.D. (Dub. Univ.), D.P.H., F.R.C.P.I.;

Consulting Physician, Royal Victoria Eye and Ear and Teac Ultain Hospitals, Dublin; Physician, Sir Patrick Dun's Hospital, Dublin; Examiner in Pharmacology, Conjoint Board, Royal Colleges of Physicians and Surgeons.

Professor of Preventive Medicine and Medical Jurisprudence.

GEOFFREY BEWLEY, M.D. (Dub. Univ.), F.R.C.P.I., F.R.C.S.I., D.P.H.;

Physician to the Adelaide Hospital, Dublin; Assistant Physician to Bloomfield Mental Hospital, Donnybrook; Examiner in Hygiene, Preventive Medicine and Medical Jurisprudence, Conjoint Board, Royal Colleges of Physicians and Surgeons.

BIOLOGY.

Lecturer.

[Vacant.]

OPHTHALMIC AND AURAL SURGERY.

Professor.

[Vacant.]

DENTISTRY.

Professor.

[Vacant.]

Registrar.

ALFRED MILLER, O.B.E.

Assistant.

T. K. DIGBY.

DEPARTMENTS OF THE SCHOOLS.

ANATOMY.

The Department of Anatomy has had an unbroken existence of over 130 years, and is to-day one of the largest and best equipped Departments of its kind in the three kingdoms.

The main Dissecting Room, which is 70 feet long, 50 feet wide, and 30 feet high, is one of the best examples of its kind in existence; it is well lighted, and ventilated. Locker Rooms, Ladies' Rooms, Research Rooms, Store Rooms, Preparation Rooms, &c., complete the Department.

The Dissecting Room is open for practical work from 9 a.m. to 5 p.m., except on Saturdays, when the hours are 9 a.m. to 12 during Winter Session, and from 9 a.m. to 4 p.m. during Summer Session, except on Saturdays, 9 a.m. to 12, and Wednesdays, 9 a.m. to 1 p.m.

WINTER SESSION.

Courses of instruction are given to :—

1. Medical Students of the First Year.
2. Medical Students of the Second Year.
3. Medical Students of the Third and Subsequent Years who are candidates for the Conjoint Diploma or the Fellowsnip of the College.
4. Dental Students.

SUMMER SESSION.

5. Medical Students of the First Year.
6. Medical Students of the Second Year.
7. Candidates for Fellowship and Higher Examinations.

COURSE I.

MEDICAL STUDENTS OF THE FIRST YEAR.

This Course consists of two parts :—

1. Dissections	... ...	Fee, £5 5s.
2. Demonstrations, Tutorials, &c.	...	Fee, £3 3s.

This Course includes the Study of the Framework of the Body, the Anatomy of the Limbs, the Thoracic and the Abdominal Viscera. Notices of particular subjects for study, prize examinations, &c., are published in the Anatomy Rooms from time to time throughout the Term.

Dissection may be commenced on 1st October. An average attendance in the Dissecting Room of at least two and a half hours per day, five days per week, is required of Students of the First Year.

COURSE II.

MEDICAL STUDENTS OF THE SECOND YEAR.

This Course consists of two parts :—

1. Dissection	Fee, £5 5s.
2. Lecture Demonstrations, Tutorials, and Demonstrations on the Living Model	Fee, £3 3s.

This Course includes the study of the Systemic, Surface and Regional Anatomy of the whole Body. Notices of particular subjects for study, prize examinations, &c., are published in the Anatomy Rooms from time to time throughout the Term.

Dissection may be commenced on 1st October. An average attendance at Anatomy of three hours per day, five days per week, is required of Students of the Second Year. Total of 600 hours is required.

COURSE III.

MEDICAL STUDENTS OF THE THIRD AND SUBSEQUENT YEARS WHO ARE CANDIDATES FOR THE FELLOWSHIP OF THE COLLEGE (PRIMARY EXAMINATION).

Fee, £5 5s.

This Course, in addition to being a Revision Course, includes a Course of instruction in the Embryology and General Morphology of the Human Body, and is conducted partly practically and partly by means of Lectures and Demonstrations. These Courses should only be attended by Students who have passed the First Professional or other equivalent examination.

COURSE IV.

Dental Students.

This Course consists of two parts :—

1. Dissections ... ... Fee, £5 5s.
2. Lecture Demonstrations ... ... Fee, £3 3s.

Dissection may be commenced on 1st October.

Lectures will be delivered on Tuesdays and Thursdays, at 12. The work of the Class conforms with the requirements of the Syllabus of the College for the examination in Anatomy for Dental Students. Dental Students are required to devote not less than two hours per day, five days per week, to the study of Anatomy. Total of 400 hours is required. A special course on the development of the face and the teeth is given to all Dental Students. The course usually begins about three weeks before each ensuing Dental Professional Examination.

COURSE V.

The Summer Course consists of Dissections, Demonstrations, and Tutorials.

COURSE VI.

Students and Practitioners who wish to undertake Special Anatomical Studies, can do so with the permission of the Professor of Anatomy, to whom application should be made. Special laboratory facilities are provided for those wishing to undertake original work.

COURSE VII.

A special course in Applied Anatomy with particular reference to the nervous system is given during the first two terms of each academic year.

COURSE VIII.

A special course in the anatomy and development of the central nervous system and of the sense organs is given to candidates preparing for degrees and diplomas in Psychological Medicine.

Days and hours are arranged as far as possible to suit the convenience of those desiring to attend the classes.

Dental Students are required to attend Theoretical and Practical lectures in both Applied Chemistry and Physics and Physiology.

PHYSIOLOGY AND PRACTICAL HISTOLOGY.

SYSTEMATIC LECTURES are delivered during the Winter Session on Mondays and Fridays at 10.45 a.m., and Thursdays at 12 noon, and are illustrated by lantern projections of diagrams, photo-micrographs, &c., as well as by demonstrations of the principal facts in Physiological Chemistry and Physics.

Practical demonstrations in Experimental Physiology are given as arranged.

A Course of Practical Physiology is given on Mondays and Thursdays from 3 p.m. to 5 p.m.

Practical instruction in the use of the Sphygmograph, Polygraph, Sphygmomanometer, Hæmoglobinometer, etc., is given during this session.

A Course of Histology is given during the Summer Session. This comprises both Microscopical Anatomy and Technique, on both of which Demonstrations are given, in addition to the ordinary class instruction. Under the Professor's supervision the Student is trained in the use of the microscope in its application to Physiological and Medical work; and every opportunity is afforded him of forming a valuable cabinet of Histological preparations.

In the first hospital year a Course of instruction in Applied Physiology is given, illustrated as far as possible by living specimens. The classes meet on Wednesdays at 11 a.m. and Tuesdays at 12.

Students and Practitioners wishing to undertake special Histological or Physiological studies can do so under the direction of the Professor, to whom application should be made.

Special instruction for the Primary Fellowship examination is given in a series of lectures delivered at pre-arranged hours, and in a special Course of demonstrations and practical classes in Advanced Biochemistry.

PATHOLOGY.

Lectures in Systematic and Practical Pathology are given on Mondays, Thursdays, and Fridays, at 11.15 a.m. in Winter Session, and on Mondays, Thursdays, and Fridays at 11.15 a.m. in Summer Session.

The lectures and demonstrations are continuous from October to June, and include Courses in Microscopic Pathology, Bacteriology, and Clinical Methods.

PRE-REGISTRATION—CHEMISTRY AND PHYSICS.

A class in preparation for the July Examination under the new regulations will commence at the beginning of January, 1939, and continue until June. The time-table will be notified later, when the size of the class is known.

APPLIED CHEMISTRY AND PHYSICS.

This class will commence at the beginning of October, 1938, in preparation for the June Examination. Lectures will be given at 9 a.m. daily during the October term. The times of practical classes will be notified later.

Supplemental Uncertified Courses of any duration may be taken on applying to the Professor.

SURGERY.

The Lectures on the Theory and Practice of Surgery are delivered on Mondays, Wednesdays, and Thursdays at 5.15 p.m. during the Winter Session.

The extensive and unique collections in the Museums of the Royal College of Surgeons are largely utilized in illustration of the Course.

The stated Courses of Operative Surgery are held in the Summer Session at 1 p.m. on Mondays, Wednesdays, and Thursdays.

In order that adequate personal attention may be given to all, the Class is divided into sections of not more than twenty members. In this way a complete series of Surgical Operations, under the direction of the Professor, is performed in each section.

All members of the class are free to attend the meetings, and look on at the work of every section ; and it is competent for the Professor to give credit therefor ; but diligent attendance at the meetings of one section fully suffices for the issue of certificates.

Demonstrations of Surgical Instruments and Appliances form an important portion of the Course.

MEDICINE.

These Lectures are delivered on each Tuesday and Wednesday at 12 o'clock and Friday at 5.15 p.m. during the Winter Session, and are illustrated by Drawings, Diagrams, Casts, and Pathological Specimens. Catechetical Repetitions are held at stated times, at the option of the Professor, with a view of testing the attentiveness of the class.

MIDWIFERY AND GYNÆCOLOGY.

The Lectures are delivered during the Winter Session on Mondays and Thursdays at 2 p.m., and Saturdays at 11.15 a.m.

The Obstetric portion of the Course is made demonstrative by Diagrams, Instruments, Preparations from the Museum, &c. ; Diseases of Women and Children are dealt with in accordance with the modified scheme of examination now in force.

MATERIA MEDICA, THERAPEUTICS, AND PHARMACY.

The Course of Lectures on these subjects is delivered at 12.35 p.m. on Mondays, Wednesdays, and Fridays, during the Summer Session.

Pupils studying these subjects have access to Special Museums of Drugs and of Pharmaceutical preparations, and are afforded facilities for becoming acquainted with the appearance and characteristics of Medicines, as well as with the methods of prescribing them.

PREVENTIVE MEDICINE AND MEDICAL JURISPRUDENCE.

The Lectures in Preventive Medicine and Medical Jurisprudence are given during the Summer Session, by the Professor of these subjects—on four days each week.

BIOLOGY.

The Course of Lectures in this subject is suited to the requirements of Licensing Bodies, under the five years' curriculum. Lectures are delivered on Tuesdays and Thursdays, at 2 p.m.; Saturdays, at 10.45 a.m. during the Summer Session. Practical Demonstrations are given, and the valuable Collections in the Museum used. Arrangements are also made for Special Courses in Botany and Zoology, when necessary.

FEES.

Operative Surgery, Advanced Anatomy, Practical Anatomy, Practical Chemistry, Histology, Advanced Physiology, Pathology, and Bacteriology ...	each	£5	5	0
Anatomy, Applied Anatomy, Applied Physiology, Surgery, Medicine, Midwifery, Physiology (two Courses), Chemistry, Materia Medica (including Pharmacy and Therapeutics), Public Health (including Forensic Medicine), Biology, Physics, Dental Anatomy, and Dental Metallurgy ...	each	3	3	0
Applied Chemistry and Physics		9	9	0
Certified Dissections (3 months)		3	3	0
Uncertified ,, ,, ...		2	2	0

Uncertified Practical Courses.

Students of the Schools of Surgery	each	£2	2	0
Other Students	each	3	3	0

Special Courses in Practical Chemistry, from £1 1s. 0d. to £5 5s. 0d.

THE COLLEGE LIBRARY.

Librarian—C. P. SMYLY, M.D. (Univ. Dub.), F.R.C.S.I.

The Library is open daily for the use of Fellows, Licentiates, Students, and Members of the Profession introduced by Fellows or Licentiates, all of whom have the privilege of reading therein.

Students are required to sign a Declaration and obtain a Reader's Card before being permitted to read in the Library.

The leading periodicals in European languages, Government Reports referring to the profession, Hospital Reports, and the Transactions of the

various Societies are taken in. The entire collection now amounts to over twenty-five thousand volumes, and is being rapidly increased by gifts, bequests, and purchase. The Council will be glad to receive and acknowledge gifts or bequests of books suitable to be added to the collections.

THE COLLEGE MUSEUM.

Curator—WILLIAM BOXWELL, M.D. (Univ. Dub.), F.R.C.P.I.

The Museum contains a large collection of dissected anatomical preparations, dry and preserved in spirit, also some remarkable mercurial injections, and an Anthropological series of casts of heads of various races of man.

Besides upwards of 5,000 specimens preserved in spirit, there is a large recent collection of preparations preserved "in colour." There are also remarkable collections of casts in wax and plaster, and collections of calculi, dental anomalies, old surgical instruments, &c.

STUDENTS' UNION.

The Students' Union is open to all students attending the College Classes.

The primary object of the Union is to develop the social and athletic side of student life and to provide, under reasonable supervision, the means of recreation. There are Club-rooms at the College, and a field for games. A billiard-table is provided, and such games as chess may be played. Card-playing, gambling in any shape or form, and the consumption of alcoholic liquors are strictly prohibited. In connexion with the Students' Union there are football, cricket, hockey, swimming, dramatic and literary sections, as well as the Biological Society.

The subscription payable is £2 2s. per annum for all Students. This subscription covers membership of the various sections, and should be paid together with fees for lectures.

Resolutions of Council—That in the event of a student failing to provide evidence of satisfactory work within a reasonable period of his or her entry to the schools of the College, representation shall be made to the parents or guardians requesting them to withdraw the student whose conduct is unsatisfactory.

That students who have not kept the correct number of attendances at any lectures in any term must take a full course of similar lectures at the next available opportunity, and pay full fees.

That no student be allowed to take out lectures in Senior Anatomy and Physiology before he has passed the examination in Applied Chemistry and Physics.

Students' names must not be put on lecture registers until their fees are paid.

Students are notified that entries for classes will not he accepted later than the first week of term.

SCHOLARSHIPS AND PRIZES.

SCHOLARSHIPS.

Carmichael Scholarship—£15.

This Scholarship will be awarded at the close of the Summer Session, nd is open to Students of the third year who have attended in the School of Surgery the Lectures required by the Conjoint Board of the Royal Colleges of Physicians and Surgeons in Ireland, for their First and Second Professional Examinations.

Subjects for Examination.—Anatomy, Physiology, Histology, Theoretical and Practical Chemistry, Materia Medica, and Pharmacy, as required for the First and Second Professional Examinations.

Anatomy	200 marks.
Physiology and Histology	200 ,,
Chemistry (Theoretical and Practical) ...	200 ,,
Materia Medica and Pharmacy ...	200 ,,

Mayne Scholarship—£8.

This Scholarship will be awarded at the close of the Summer Session, and is open to Students who have taken the Lectures of the third and final year (as recommended by the Conjoint Board of the Royal Colleges of Physicians and Surgeons in Ireland) in the Schools of Surgery.

Subjects for Examination.—Surgery and Ophthalmic Surgery, Medicine, Pathology, Midwifery and Diseases of Women.

Surgery (Theoretical and Practical) ...	450 marks.
Ophthalmic Surgery	100 ,,
Medicine	300 ,,
Midwifery and Diseases of Women ...	100 ,,
Pathology	100 ,,

Stoney Memorial Gold Medal.

This Medal is awarded at the close of the Winter Session to the Student of the Schools who proves himself most proficient in Anatomy by examination.

Candidates must have attended in the Schools of Surgery the Lectures required by the Conjoint Board of the Royal Colleges of Physicians and Surgeons in Ireland for the First Professional Examination.

Gold and Silver Medals in Surgery.

A Gold Medal is awarded at the close of the Summer Session to the member of the Operative Surgery Class who shows the most proficiency in the Theory and Practice of Surgery. The Student second in Order of Merit receives a Silver Medal.

The Barker Prize.

This Prize, of £26 5s., is awarded at the close of the Winter Session to Students for Dissections of selected regions of Surgical importance, of which due notice is given by the Curator of the Museum of the College, and to whom intending Competitors should apply for further particulars.

The H. Macnaughton-Jones Gold Medal.

This Prize is awarded at the close of each year to the Student who has taken all his Lectures in the Schools, and who gains the highest

marks in Obstetrics and Gynæcology in the Final Examinations of the year in which he qualifies.

Captain Harry Godfrey Massy-Miles Donation.

Terms and conditions of donation:—A sum of £100 5 per cent. War Loan Stock, lodged with the Commissioners of Charitable Donations and Bequests for Ireland by Mrs. Charlotte E. J. Massy-Miles, to found a prize in the Royal College of Physicians of Ireland in memory of her husband, Captain Harry Godfrey Massy-Miles, M.C., to be awarded to the Student who obtains the highest marks in the Final Examination in Midwifery and Gynæcology during the year, provided he fulfils the following conditions :—

1. That he obtains at least 65 per cent. of the total marks allotted to the Final Examination in this subject.

2. That he completes his curriculum in the prescribed time of five years.

The prize to consist of books to the value of the annual income.

Francis Nolans Prize—£30.

This prize is awarded to the son or daughter of an Irish Medical Graduate who obtains the highest marks in the September Preliminary Examination.

The value of the prize is £30, and it takes the form of a remission of lecture fees.

The first award will be made in September, 1939.

Intending candidates should notify the Registrar at the time of entering for the Examination.

Class Prizes.

Class Prizes, accompanied by Medals if sufficient merit be shown, are given in each class, at the termination of each Course of Lectures, &c., viz. :—

Anatomy, Practical, Junior.
Anatomy, Practical, Senior.
Anatomy, Surface and Topographical.
Anatomy, Systematic.
Anatomy, Dental.
Anatomy, Applied.
Biology.
Applied Chemistry and Physics.
Histology.
Materia Medica, Pharmacy, and Therapeutics.
Medicine, Practice of.
Midwifery.
Pathology.
Physiology.
Physiology, Applied.
Preventive Medicine and Medical Jurisprudence.
Surgery.

RULES APPLICABLE TO ALL PRIZE EXAMINATIONS.

1. Students, if required, shall bring proof of their professional standing.

2. Examinations, at the will of Examiners, to be practical, oral, or written.

3. Students competing for the Class Prizes must enter for the Examination held for the Session during which they have attended the lectures.

4. The Examiners are at liberty to withhold any Prize or Scholarship unless the answering shall have attained a minimum of 50 per cent. of each subject, and a total of 60 per cent. on the entire examination.

5. The Examiners' decision in all cases is final.

PRIZES AWARDED

IN RESPECT OF

WINTER SESSION, 1937-1938, AND SUMMER SESSION, 1938.

Winter Session.

APPLIED CHEMISTRY AND PHYSICS—

First Prize and Medal, ... A. Smith.
Second Prize and Certificate, ... P. J. Mathews. / K. M. McMahon.

ANATOMY (Junior)—

First Prize and Medal, ... J. G. Crummey.
Second Prize and Certificate, ... A. Smith. / J. J. Ryan.

ANATOMY (Systematic) –

First Prize and Medal, ... P. D. Maloney.
Second Prize and Certificate, ... James Butler.

ANATOMY (Practical)—

First Prize and Medal, ... James Butler.
Second Prize and Certificate, ... P. D. Moloney.

ANATOMY (Topographical)—

First Prize and Medal, ... P. D. Moloney.
Second Prize and Certificate, ... James Butler.

ANATOMY (Applied)—

First Prize and Medal, ... C. H. Coker.
Second Prize and Certificate, ... R. St. J. Harold.

STONEY MEMORIAL GOLD MEDAL ... James Butler.

PHYSIOLOGY—

First Prize and Medal, ... D. F. Early.
Second Prize and Certificate, ... P. J. Corrigan.

APPLIED PHYSIOLOGY—

First Prize and Medal, ... Miss M. C. Walsh.
Second Prize and Certificate, ... R. St. J. Harold.

Winter Session—*continued.*

PATHOLOGY—

First Prize and Medal,	...	R. E. Brandon.
Second Prize and Certificate,	...	G. C. Whyte.

MEDICINE—

First Prize and Medal,	...	No award.
Second Prize and Certificate,	...	J. J. Reid.

SURGERY—

First Prize and Medal,	...	J. J. Reid.
Second Prize and Certificate,	...	No award.

MIDWIFERY—

First Prize and Medal,	...	C. A. Anderson.
Second Prize and Certificate,	...	No award.

Summer Session.

BIOLOGY—

First Prize and Medal,	...	J. C. Bowman.
Second Prize and Certificate,	...	Charlotte S. Wells.

ANATOMY (Dental)—

First Prize and Medal,	...	P. S. Hayes. Charlotte S. Wells.
Second Prize and Certificate,	...	W. M. Keith.

HISTOLOGY—

First Prize and Medal,	...	G. L. Fine.
Second Prize and Certificate,	...	No award.

MATERIA MEDICA—

First Prize and Medal,	...	W. Lazarus.
Second Prize and Certificate,	...	E. Woolfson.

FORENSIC MEDICINE—

First Prize and Medal,	...	W. Lazarus. J. Butler.
Second Prize and Certificate,	...	D. Cummins. Carmel McKenna.

OPERATIVE SURGERY—

Gold Medal,	...	No award.
Silver Medal,	...	No award.

MACNAUGHTON-JONES GOLD MEDAL, M. J. Nolan.

CAPTAIN HARRY GODFREY MASSY-MILES PRIZE, M. J. Nolan.

GENERAL SUMMARY.

Curriculum and Total Expenses of the Conjoint Diplomas—Medicine, Surgery, and Midwifery.

Every Student must have a Certificate of having passed an Examination in General Education recognized by the General Medical Council, and be registered as a Medical Student before he can attend lectures on Applied Chemistry, Physics, &c.

REGULATIONS.

Regulations for the following are issued by the Royal Colleges, any of which can be obtained on application:—

1. Regulations for admission to the Fellowship Examinations, which are held in March, June, and November.

2. Regulations and Syllabus for Conjoint Examinations for the Licences in Medicine, Surgery, and Midwifery.

3. Regulations and Syllabus for Preliminary Examinations, which are held in January, June, and September.

4. Regulations and Syllabus for the Pre-Registration Examinations in Chemistry and Physics.

5. Regulations for the Examination for the Licence in Surgery for Qualified Practitioners.

6. Regulations and Syllabus for the Licence in Dental Surgery.

7. List of the dates arranged for Conjoint Examinations in 1939.

8. Regulations and Syllabus for the Conjoint Examinations for the Diploma in Psychological Medicine, which are held on the first Monday in April and November in each year.

Communications relating to the Examinations conducted by the Committee of Management of the Royal College of Physicians and of the Royal College of Surgeons should be addressed to the Secretary, Committee of Management, Royal College of Surgeons, Stephen's Green, Dublin.

Communications with regard to the Royal College of Surgeons in Ireland should be addressed to the Registrar at the College.

REISIMINT AN PHIARSAIGH.

Royal College of Surgeons in Ireland Company.

Sluagh Committee:

CHAIRMAN.

MR. SETON PRINGLE, F.R.C.S.I.

MEMBERS.

T. O. Graham, F.R.C.S.I.
E. J. Evatt, D.S.O., M.B., B.S.
W. Norman Rae, V.D., M.A., F.I.C.
A. Miller, O.B.E. (*Registrar*).

SECRETARY.

Charles E. Tait.

TEMPORARY OFFICER COMMANDING R.C.S.I. COMPANY.

Captain Maurice O'Connell.

Headquarters.

The Headquarters of the Company are at Griffith Barracks, South Circular Road, Dublin.

All information with reference to the Company may be obtained there between the hours of 10 a.m. and 12.30 p.m.; 2 p.m. and 5 p.m.

The Commanding Officer also attends at the Company Office in the College for the purpose of giving information and interviewing intending Recruits. The times of such attendance are notified in Company Routine Orders, which are issued weekly and posted on the Company Notice Board in the College.

Enrolment.

The Company is open to all students of the College who are the sons of Irish parents, or who are citizens or the sons of citizens of the Irish Free State, Recruits must be over 18 years of age.

Conditions of Service.

The Regiment of Pearse is at present formed by Companies drawn from the Colleges of Dublin, Cork, and Galway, viz. :—University College, Dublin; Dublin University; R.C.S.I., Dublin; University College, Cork; and the University College, Galway.

Volunteers are liable to be called out for service in case of imminent national danger or of great emergency.

This liability does not extend, however, to aiding the Civil power in the preservation of public order.

Each Volunteer contracts :—

(*a*) To abide by the regulations governing the Company.

(*b*) To serve for 12 (twelve) years.

(*c*) To attend Drills, etc., as ordered during each year of Service.

Drills.

Instructional Parades are held one evening each week, during the three College terms, at Griffith Barracks.

Volunteers are required to attend at least four Overnight Camps during the year, and also the Summer Camp, which lasts fourteen days.

The Parades, Camps, etc., are always arranged so as to cause as little interference as possible with ordinary College activities, such as lectures, athletic engagements, etc.

The times for parades are published in Company Routine Orders, which are posted on the Company Notice Board in the College.

Training Grants.

Volunteers who fulfil their obligations as to attendance at Overnight Camps and Drills and attend Summer Camp will receive a Grant of £3 plus pay for the period £1 8s., i.e. £4 8s. in all.

Uniform.

Each volunteer is provided with all the necessary Uniform, arms, and equipment.

Expenses.

During Camp all expenses in connection with Transport, Messing, etc., are met from Army Funds.

Discharge.

Among other reasons a Volunteer may be discharged for the following :—

(1) Termination of his engagement.

(2) At his own request by giving seven days' notice.

For fuller Information, see "Defence Force Regulation' 14/1934.

SCHEDULES.

Students are requested to get their Schedules at the Registrar's Office, write in their full names, fill in the blanks, and present the Schedule for Signature to each Professor during the last Week of the Session.

Entries for the various courses will be received, and information respecting Fees, Courses of Instruction, &c., afforded either personally or by letter, by the Registrar. Fees payable in advance. Cheques to be made payable to Royal College of Surgeons in Ireland.
